13	Dehli 108	Geneva 127	Philadephia 100
14	Beijing 96	Brussels 125	Atlanta 62
15	Hiroshima 89	Frankfurt 112	Dallas 46

The purpose of the 2014 Meeting Venue Preference Survey is to inform the IAOC during its IETF meeting venue selection process of the community's preferred future meeting venues. While being guided by this information, the IAOC will select actual venues following its due diligence, including site visits of specific hotel and conference facilities and other factors. Other factors include cost, travel burden, venue surroundings, access, safety, risks, etc. The IAOC is currently (March 2014) reviewing venues for 2017.
