

Package ‘lavaan.shiny’

October 13, 2022

Type Package

Title Latent Variable Analysis with Shiny

Version 1.2

Date 2017-04-06

Author W. Kyle Hamilton <kyle.hamilton@gmail.com>

Maintainer W. Kyle Hamilton <kyle.hamilton@gmail.com>

Description Interactive shiny application for working with different kinds of latent variable analysis, with the 'lavaan' package. Graphical output for models are provided and different estimators are supported.

License GPL-3

URL <https://github.com/kylehamilton/lavaan.shiny>

Depends R (>= 3.0.3)

Imports shiny, shinyAce, psych, lavaan, semPlot

LazyData TRUE

RoxygenNote 5.0.1

NeedsCompilation no

Index 3

`lavaan.shiny`*Launch lavaan.shiny User Interface*

Description

`lavaan.shiny()` loads interactive user interface built using R shiny.

Usage

```
lavaan.shiny()
```

Details

Start `lavaan.shiny`

The interactive user interface is to provide an easy way for people who are learning how to work with the `lavaan` package and/or are not comfortable with the R command line system. Includes example data for testing out a few example analysis.

Value

Nothing

Examples

```
## Not run:  
library(shiny)  
lavaan.shiny()  
  
## End(Not run)
```
